

ALKALINE WATER DISPENSER K-Series CT350

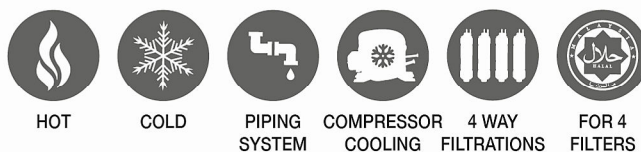

Mashida
Healthy Water, Healthier Life

Model	K-series CT 350 Counter Top	
Water Volume	Hot 5.0ℓ/hr	Cold 2.0ℓ/hr
Water Tank Capacity	Hot 1.4ℓ	Cold 3.2ℓ
Power Consumption	Hot 550W	Cold 90W
Water Temperature	Hot 85°C ~ 95°C	Cold 6°C ~ 10°C
Dimensions	(W) 260 x (D) 460mm x (H) 510mm	

- Attractive Design & Elegant Look.
- Compact Inner Configuration, Low Noise When in Working.
- Hot Water Safety Tap for Children Protection.
- Food Grade Stainless Steel 304 stretched Hot & Cold Tank.

ALKALINE WATER DISPENSER K-Series FS550

Model	K-series FS 550 Floor Standing	
Water Volume	Hot 5.0ℓ/hr	Cold 2.0ℓ/hr
Water Tank Capacity	Hot 1.5L	Cold 3.0L
Water Temperature	Hot 85°C-95°C	Cold 6°C-10°C
Power Consumption	Hot 550W	Cold 90W
Dimensions	(W) 300 x (D) 395 x (H) 1110mm	

- Environmental friendly R-134a refrigerant
- Hot & Cold available
- Hygiene guard - Removable lid that enables easy water pouring as well as cleaning
- Modern design

Sediments

To filter sediments up to 5 microns (WHO standard as safe water is <30 microns).

Pre Carbon

High quality activated carbon with large surface of contact to absorb Chlorine, Organic Solvent, Heavy Metals, Odour & also help improve the taste.

Bio-Alkaline with ORP

Emit Far-infrared to break water molecules cluster smaller, with activation and oxygenation, water molecules for better cell absorption, promoting metabolism and helps improve immune and defense system. With ideal alkaline pH to neutralize any acidity in our body and Oxidation Reduction Potentials up to -380 to neutralize Free Radicals in the body.

Post Carbon

Carbon block to further remove odour and any trace of any unwanted substance while producing better taste.
